Welcome Message

Dear Colleagues and Friends;

The journey of fertility care is like the journey of mankind. It can be summarized in a few short steps or may transcend oceans, but today we can assure almost every couple of reaching their destination.

In today's day and age, infertility is on a steep rise due to various factors. We see more and more patients of infertility in our day to day practice. The practical aspects of dealing with various situations and modern updates about them will go a long way in helping you to treat such patients.

The crux of treating infertility is investigating the patient correctly. Investigations should be individualized and pertinent. The various tips and tricks of semen processing will be of great value while doing an IUI in your own setup. Ovulation induction is one of the basics of infertility treatment. Practical and clear insights about nuances of ovulation induction will make it easy for you to monitor your patients.

Newer updates will be given about various conditions like PCOS, Endometriosis etc. which are commonly seen in our practice. There will be a detailed discussion about lesser known facts in infertility like medico-legal aspects. Lifestyle management can work wonders if emphasized and practised correctly. We have a Pre Congress Workshop devoted to various endoscopic surgeries which will help in enhancing fertility.

The MOGS Dossibai J. R. Dadabhoy Silver Jubilee Oration will be delivered by Prof. Laurel Stadtmauer, M. D., Ph. D. from Jones Institute for Reproductive Medicine, Eastern Virginia Medical School on “Update on PCOS & Fertility Treatment”. The Oration is open to all MOGS members.

The one time registration for MOGS Members is Rs. 11,500/- inclusive of service tax & can be availed by all MOGS members which entitles them to attend all the conferences except the Monsoon Dhamaka, International Conference and the precongress workshops.

The Managing Council of MOGS continues its commitment to felicitate the exceptional individuals who have defined our professional lives and clinical practice. At the conference we will honour our gurus, Padmashri Dr. Indira Hinduja and Prof. Dr. Sadhana Desai Past President, FOGSI who have dedicated their lives for pioneering work in Infertility and Obstetrics. We request you to come in large numbers to felicitate them.

We dedicate this conference to the efforts of doctors who have helped countless subfertile women to conceive and convert their dreams of motherhood into reality!

This conference and the workshops will enhance your knowledge and skills in successful management of such couples.

Dr. Suchitra Pandit
President, MOGS

Dr. Nandita Palshetkar
Secretary, MOGS

Dr. Bipin Pandit
Treasurer, MOGS
