Conference Brief

The objective of the exclusive Workshop on the 14th and 15th of November 2024 will be to provide an updated evidence-based view on various aspects of infertility assessment, work-up, to discuss on the use of various methods of infertility treatment, to discuss on the potential complications of various infertility treatment methods. Over 90% of the topics will be covered by the International faculty. Admission to this course will be restricted. The Delegates will get a chance to interact with the faculty over two days and sharpen their skills and refresh their knowledge.

The conference on the 16th and 17th of November 2024 intends to discuss and lay threadbare the dilemmas Obstetricians and Gynecologists face in daily practice.

This conference will focus on Obstetrics and try to unravel the mysteries of pregnancy and decipher the complexities of labour and delivery. It will also pull back the curtain on quality of care and try to cast some light on maternal mortality and our efforts to bring it in line with global standards.

Endometriosis, Fibroids, Urogynecology etc., medical options for these problems and surgical treatments like Hysterectomy, Myomectomy, Vaginal surgery, Hysteroscopic surgery and Laparoscopic surgery. We will also look at complications and the role of allied specialties who partner with us to manage our patients.

The entire of spectrum of Infertility with its various diagnostic and treatment options will also be covered in a comprehensive yet practical manner.

The topics to be covered will also include Sexual and Reproductive Right issues like Abortion, Family planning, including oral contraception, IUD's, permanent sterilisation etc and the intersection of laws like the MTP Act, The PC PNDT Act and so many other laws which we need to negotiate and comply with in daily practice, and violence against women.

The conference will also seek to address Doctors rights and try to offer solutions to common problems like maintaining quality of care, accreditation, violence against doctors, medical insurance, indemnity insurance for doctors, fees and costs in health care and the challenges faced by small and medium sized hospitals and clinics.

The conference will focus on real life problem solving and interactions. Audience will engage with sophisticated software like polls and other means. We also plan to have an Art exhibition and auction with prominent artists showcasing paintings and sculptures depicting various aspects of women's health and the lives of health care providers.

The organizers expectation is that the Conferences will have a national character and global participation. Delegates will be Obstetricians and Gynecologists in private and public practice not only from India but also from neighboring countries. The contents of the conference are being designed to interest the generalist as well as the sub specialist practitioner.
